<p>Hi Josh,</p> <p>I would suggest a 1-hour call which will cover overview of the product features, which Andy can deliver. Please schedule the initial call, keeping in mind east coast time. We will discuss regular connects for feedback and/or queries after the initial meeting.</p> <p>Kind regards,</p> <p>Peter Joseph</p> <p>Director, Product Engineering ABCLabs</p> <p>7th Floor, Block A, Golf Links,</p> <p>Bangalore -560021, Karnataka, INDIA</p> <p>Mobile: 91-9831117436</p> <p>E-mail: peter@abclabs.com</p> <p>From: Josh Jenson <josh@pte.com></p> <p>Sent: 07 June 2023 21:40</p> <p>To: peter@abclabs.com; H Hasan <hasan@abc.com>; Jerry Soch <soch@pte.com></p> <p>Subject: Re: Product pitch</p> <p>Hi Peter,</p> <p>Thanks for a quick comeback. Are you going to schedule the initial call or do you want us to schedule it. Who should be invited ? Do you plan to have a weekly/bi weekly call for feedback?</p> <p>Regards,</p> <p>Josh</p>	<p>Josh wants to know who should be on the call, who will schedule it and at what frequency. Peter responded saying that we should have a 1 hour call with Ravi and we can have a regular connect.</p>

Hi Leslie,

Yes, once the final deliverable is determined, we will share it with Ravi. However, Milestone

1 is not going to be our Beta release deliverable. We are still implementing the new APIs we want to have for Beta. So, I am guessing this is just to get Ravi started with product runtime container? We expect it will change a lot in next few weeks.

Best Regards,
Krista

Hi Krista and Scott, I understand we have very minor work left for milestone 1 features. Could you please share the final milestone 1 containers with Ravi so that he can build the beta/demo/preview environment for us? We're doing it this way instead of a regular beta. Thanks!

Ravi, moving forward shall we have a weekly chat to touch base?

<p>On XX/XX/2022, I viewed my Consumer report and I noticed that the information from my auto loan from Prestige Financial is reporting across the Credit Reporting Agencies is inaccurate. Under the FCRA the law states the following. 623 - 15 U.S. Code 1681s2 - Responsibilities of furnishers of information to consumer reporting agencies (B) Reporting information after notice and confirmation of errors.</p> <p>A person shall not furnish information relating to a consumer to any consumer reporting agency if (i) the person has been notified by the consumer, at the address specified by the person for such notices, that specific information is inaccurate; and (ii) the information is, in fact, inaccurate.</p> <p>616. Civil liability for willful noncompliance [15 U.S.C. 1681n] (a) In general. Any person who willfully fails to comply with any requirement imposed under this title with respect to any consumer is liable to that consumer in an amount equal to the sum of (1) (A) any actual damages sustained by the consumer as a result of the failure or damages of not less than {\$100.00} and not more than {\$1000.00} ; or (B) in the case of liability of a natural person for obtaining a consumer report under false pretenses or knowingly without a permissible purpose, actual damages sustained by the consumer as a result of the failure or {\$1000.00}, whichever is greater ; (2) such amount of punitive damages as the court may allow ; and (3) in the case of any successful action to enforce any</p>	<p>I viewed my consumer report and the credit reporting is not accurate because it violates the FCRA law.</p>

liability under this section, the costs of the action together with reasonable attorneys fees as determined by the court	
<p>Cash central has put this debt on my credit multiple times. I found the last complaint with the CFPB involving XXXX XXXX that resulted in the removal. Complaint ending in XXXX. At that time Cash Central did not supply XXXX XXXX with documentation confirming the debt and it was removed due to the debt being erroneously put on my report. You can find this compliant that was submitted to the CFPB on XX/XX/2018. Cash central has a history of putting incorrect information on peoples credit reports which can be found at this link XXXX XXXX XXXX</p> <p>At this point, Nothing further should be needed from me. This debt has been proven countless times to not be mine. Again, when a debt is found to be erroneous, it is illegal to re report that same debt to the credit bureaus. I received a letter from XXXX XXXX that they did not see the account reported any longer. Cash Central, if you have re reported again, please comply with the law and remove effective immediately.</p>	A debt has been incorrectly put in my credit report and this has been done multiple times.
<p>I have applied for a home loan to purchase a new home. The lender pulled my credit and it showed I had a late payment XX/XX/XXXX for a previous mortgage. I paid off my home loan in XX/XX/XXXX. I do not owe this company any money. I called them and they said it would take 10 days just to look at the file. I am very upset with their process. I would like help to get this erroneous error off my credit report. The error is showing dated XX/XX/XXXX.</p> <p>I spoke with the company XX/XX/XXXX and they said they did not report this and it would take 10 days to have their team look into it. I will be losing the house that I have put a down payment on and I will lose my down if this does not get resolved in a timely manner.</p> <p>I have filed a complaint with this company previously and you helped with a positive outcome but again they are messing with my credit.</p>	I applied for a home loan and a late payment on a previous loan is incorrectly there in my credit report.

I check my credit report frequently, that's why I noticed on XX/XX/XXXX that Bank of America had closed my credit card. They have provided NO NOTICE to me that it would be or has been closed. There is a XXXX dollar balance and we have been practical to limit use of the card except when needed. The account had been open for over 20 years and never had a late payment.

I called Bank of America to inquire why it was closed and they treated me with great disrespect - indicating that the account was closed and sent to collections. I was shocked as I had paid the card off 2 years ago and was concerned there was a mistake. I spoke to the collections agent who confirmed there was no balance due and the account should not have been sent to collections. He referred me to speak to a " credit analysis " who I called the next day.

The credit analyst offered to open a new credit card but refused to reopen my existing account. They indicated that the account had been closed due to inactivity, despite the fact that we have been a long-term, loyal, and credit-worthy customer. As a result of their actions, my longest open credit card (and with fairly high available credit) has been removed from my credit report. Furthermore, the " remark " that it was sent to collections appeared on my credit report. Bank of America was entirely unhelpful and dismissive in resolving these concerns. They have yet to mail or email me ANY notice of the account closure - saying only that they have no obligation to perform this simple act of customer service and that a notice " should be " mailed within 30 days of the closure.

Details of the chip designed to power Sony's PlayStation 3 console will be released in San Francisco on Monday. Sony, IBM and Toshiba, who have been working on the Cell processor for three years, will unveil the chip at a technology conference. The chip is reported to be up to 10 times faster than current processors. It is being designed for use in graphics workstations, the new PlayStation console, and has been described as a supercomputer on a chip. Sony has said the Cell processor could be used to bridge the gap between movies and video games. Special effects and graphics designed for films could be ported for use directly in a video game, Sony told an audience at the E3 exhibition in Los

Angeles last year. Cell could also be marketed as an ideal technology for televisions and supercomputers, and everything in between, said Kevin Krewell, the editor in chief of Microprocessor Report. The chip will be made of several different processing cores that work on tasks together. The PlayStation 3 is expected in 2006 but developers are expecting to get prototypes early next year to tune games that will appear on it at launch. Details of the chip will be released at the International Solid State Circuits Conference in San Francisco. Some details have already emerged, however.
